## ABOUT ACTIV

Activ has a strong and proud history of supporting people living with disability to achieve their goals, break through barriers and increase their independence.

Established in 1951, Activ was formed by a group of families who wanted more for their children who lived with disability and had become marginalised by society. Over time the group grew to encompass community, employment, accommodation, training and more.

Activ exists to improve the lives of people living with disability, their families, and carers.

We believe that greater accessibility and inclusion for people living with disability benefits everyone, and we all have a role in expanding opportunities.

Activ provides environments for customers to Live, Learn and Work with confidence, and grow the potential of all people to live the life they choose.

Today, Activ has grown into one of Western Australia's largest not-for-profit Disability Service Providers, supporting more than 900 people across the state.
